GOT A PROBLEM NEWEL?

We've got everything you need to get back on track

GOT AN ISSUE WITH A NEWEL?

Does your newel need replacing but you don't want to remove the base?
Or has it been cut too short or damaged at the base?

USE OUR UTILITY NEWEL

Designed to be fitted to an existing part of newel base to raise to required height.

TRIM TO REQUIRED SIZE & INSTALL

BACK ON TRACK

Using the newly installed spigot fixing you can continue your installation for an easy strong solution.

NEED MORE HELP

Contact our Technical Team for further information on how to deal with tricky installations.

Utility Newels

A timesaving addition to our range

Richard Burbidge manufacture inspirational stairparts to suit all styles in both contemporary and traditional styles.

We recognise that sometimes the existing installation can have problems. One common problem is that the newel base is not correctly finished. It can either have been cut too short, or be damaged toward the top.

The Utility Newel range are over-sized newel tops that can be used to restore correct full newel dimensions. They are simply fitted like a normal newel, and trimmed to size.

Utility newel components

The range is available in popular plain or stop chamfered styles with a height of up to 1000mm.

Fitting instructions are available to download at www.richardburbidge.com
Contact our Technical Team for further information on how to deal with tricky installations.
